CONSULTING

“OB care. They are an agency that truly invested themselves in our business. They didn't just say they were part of our team, they really became part of our team and had the same passion as we did to create cut through for our brand....

I have used many agencies and some are good and some not so, but with OB, we got Jerry McGuire – they cared, it was personal.”

Wow

"The world of technology can be a daunting and frustrating place. The fast pace of change, confusing acronyms, quirky technology and excited technologists promoting the latest "must have" solution. With so many options available, how do you pick what's best for your company? How do you know that what has been proposed is the most suitable solution? Why can't ideas be discussed using simple language that everyone understands?!?!"

Breathe, relax, calm yourself and listen to the reassuring voice that is OB...This is a firm who focus on making a customer, not a sale...who listens, understands and delivers technologically rich solutions that are simple and easy to use...one that draws upon their expertise to gather all of the facts and uses their creative nature to simplify the answer.

So if you want a firm that values a customer-centric approach thanks to great people and clever technology, the answer is quite simple... it's OB!"

"...if you'd rather be working with a **very talented and creative bunch of professionals who won't waste your time or money** and will deliver a high-quality product within a sensible agreed timeframe, then give the misfits at OB a call..."

"The team at OB have been absolutely invaluable to QinetiQ. We asked for key creative and strategic support in planning one of the world's largest industry events.

The OB team engaged with us brilliantly, rolling up their sleeves, getting stuck in and meeting many key people across our business.

They brought sound commercial sense to bear, managed engagement brilliantly and recommended an innovative method of delivering high quality content.

They then ensured this was implemented at breakneck speed to a magnificent effect. The challenge they had would scare off many agencies but they were undaunted and, despite huge pressures, managed it all in a calm, efficient manner.

We are delighted with the result and will continue our relationship on an on-going basis. I'd have no hesitation in recommending them to any other good business."

Group Head of Marketing, QinetiQ
